

WT20

The powerful WT20 is a 2" portable trash pump with a 30m head that delivers a maximum capacity of 650 litres per minute.

INTRODUCTION

AN INVESTMENT IN YOUR WORKSITE

The WT20 Trash Pump is the ideal addition to any construction sites, mining sites, storm drains where water is mixed with debris.

As a reliable 2" Pump, it has been designed to work hard day in, day out, delivering up to 650 litres per minute.

With maximum suction head of 8m and maximum total head of 30m, the WT20 has plenty of reach, and when paired with 60 years of Honda's engineering experience you know you're dealing with the best in the business.

LEGENDARY HONDA PUMPS

Honda Water Pumps offer a level of uncompromising performance to a wide variety of water transfer applications.

Designed for easy starting, priming and dependable service, used throughout the world for over 20 years, Honda water pumps have earned a reputation for unsurpassed reliability and performance.

These pumps are known for their durable construction, quality engines and easy portability; features that apply to all categories of Honda pumps.

PERFORMANCE/USABILITY

Like most Honda Power Equipment products, the WT20 starts first time, every time with Honda's famous one pull easy start system.

It's powered by Honda's flagship GX160 4-Stroke OHV engine and runs on unleaded fuel, so you'll never have to mix oil and petrol again.

That makes the WT20 an environmentally friendly Trash Pump with low emissions, less noise than the competition and low fuel consumption.

WARRANTY

All Honda pumps come with an impressive 4 Year Domestic Warranty and 1 Year Commercial Warranty, giving you added peace of mind.

When combined with a network of over 400 authorised independent dealers around Australia, you've got some serious back-up with a Honda pump.

There's no question; if you're after a quality investment that won't let you down, the Honda WT20 is just the pump for you.
