

F220

Honda's F220 features the impressive GXV57 engine, which uses less oil and fuel and produces less noise and emissions than the competition.

INTRODUCTION

THE VERSATILE TILLER

With its lighter weight, easier to use deadman clutch and multi-step adjustable handlebars (including the ability to swing the handlebars to either side) the F220 is a brilliant tool for the gardening professional or domestic user alike.

Honda's F220 features a mid-tine configuration that delivers the perfect balance of power and manoeuvrability to perform almost any kind of tilling task you might find yourself doing.

HONDA TILLERS - READY TO PLOW

Honda leads the world with revolutionary mini 4-stroke engines that deliver more power and use less oil.

With their auto-decompression, electronic ignition and anti-flood primer system, Honda Tillers start first time, every time, year after year.

Superior engineering means Honda Tillers produce less noise and smoke and with their ultra-compact, lightweight design, Honda Tillers are easier to handle and will keep you working longer with less fatigue.

PERFORMANCE/USABILITY

Like so many other Honda Power Equipment products, the F220 Tiller starts first time, every time with Honda's famous one pull easy start system.

Its lightweight design is the result of decades of Honda Power Equipment's technological advancements, making it ideal for confined areas.

What's more, the F220 runs on unleaded fuel so you'll never have to mix oil and petrol again - great for the environment and for the soil that you're tilling - why would you want to spew 2-stroke smoke into the same soil you're going to pull your vegetables from in a few months' time?

545mm tine width

Multi-step adjustable handlebars

WARRANTY

The peace of mind provided by a 4 Year Domestic Warranty & 1 Year Commercial Warranty helps make the F220 an even more impressive package.

400 authorised Honda dealers around Australia are also on hand to keep your F220 serviced and running smoothly.

So when you're looking for best-in-class performance in a tidy package, the F220 is just what the doctor ordered.

TECHNOLOGY

Powerful and torquey GXV57 4-stroke engine
